YOUR PRESIDENT'S MESSAGE

What a Start! I want to thank all the members and visitors who attended the January meeting. We were treated to an excellent presentation by Irv Ratcliff. \$500.00 worth of prizes drawn for; a ticket drum that looked almost full; and very busy officers taking dues along with signing and distributing membership cards. I really feel like we are off to a good

start in 2008.

As we move along we have to make some changes out of necessity.

Because of the sheer bulk of tickets and their high cost, starting this month tickets will be sold three for a dollar. This will not change any of the odds of having your ticket drawn. In fact because of the fewer numbers the odds should actually be

better. Plus the quality and quantity of the prizes won't change.

There are lots of things I hope you are looking forward to like I am.

In March we will be choosing a design for our 2008 medal. It has been suggested that we choose a design related to the so-called Utah war, but this is not the only theme we will consider. (cont'd pg 4)

We need original articles this year for the newsletter. All original articles will be considered for the "Edith Attebury Award" at the end of the year. The winners name will be engraved on the award plaque. It doesn't take much, just one or two paragraphs (or more) and the topic is your choice. If spelling or grammar isn't your thing, adjustments can be made if desired. If writing isn't your thing, just let me know what you want to say, and it will be copied down and typed out for your approval.

Dear Bob:

On behalf of the Utah Commemorative Quarter Commission, I wish to thank the National Utah Token Society for the participation of its members in the Utah State Commemorative Quarter Launch held on Friday, November 9, 2007, at the Rio Grand Depot.

The Coin Show was a tremendous success. I have heard from several attendees and teacher about how great it was to see so many different coins and learn about their history.

The approximately 5,000 people in attendance came to be a part of a historical event and a spectacular occasion, and the National Utah Token Society did not disappoint.

Thanks for making the Utah State Commemorative Quarter Launch and unforgettable experience.

Best regards,

Margaret Hunt
Chair, Utah Commemorative Quarter Commission
Director, Utah Arts Council

Your President's Message

Continued from Page 1

If you have an idea but don't have the artistic talent (like me). Do the best you can and we will have someone execute the design for you. And don't be afraid to use the computer to create your design.

Speaking of medals, Don Swain will once again have medals from past years available for sale at the meeting

We will also have some new encased Utah quarters for sale. These quarters are similar to the ones we received at the Christmas dinner but they are encased in Aluminum or Brass. These quarters, as well as other items we sell, help pay the bills. So please complete your set and buy at least one of each.

A question came up at the last board meeting that I want to talk about here. The question I was asked is if members could attend board meetings? The answer is Yes. If you have a question, an idea or even a complaint. Any member who wants to attend board meetings can do so. We have what is called an open board. As long as you respect the decorum of the board and will follow the procedures of the board please feel free to attend board meetings.

I hope the membership will remember this is not my club or your club. It belongs to all the members. And the more we all contribute the better the club will be.

Our speaker for this month will be Lee Cheves. Lee is a member of the club and he is a collector of Co-op related items. He has been putting

together a book on Co-ops. With the current interest in Utah and in particular Mormon items, this is a subject that will be very informative. See you at the meeting!

DIG THIS

SUBMITTED BY ANONYMOUS MEMBER

1. At one time due to the slow expensive process to make aluminum, it's price far exceeded the price of gold.
2. At one time the United States had a branch mint in the Philippines.
3. Pertaining to U.S. clad coins, which weighs more? 10 dimes, 4 quarters, 2 halves, or an Eisenhower dollar? All non-silver issues (Answer below)
4. The most common design on patriotic civil war tokens is the Indian Head design.

5. The U.S. Mint does not make "pennies" - They manufacture "cents." This is a very common and widely accepted misnomer.
6. Do you know the mintage of the 1916-D winged liberty dime? I still remember the plugged hole in my blue Littleton folder almost 50 years ago with the mintage of "264 thousand" printed underneath. Yeah, I'm still looking.
7. N.U.T.S. is a great club and needs your help to bring in new members.
8. More Lincoln cents have been minted than the total of all the other coins in the world.
9. The metal signature in the SBA, Sacajawea & Presidential dollars are exactly the same so coin operated machines are unable to distinguish them from each other. Hence the U.S. Mint is unable to remove the SBA's from circulation without human sorting.

The answer to #3 is: They all weigh the same. I have to laugh to myself when people write or say how much less hassle it is to carry a pocket full of quarters or dimes over halves knowing this.
